GENEBIO HEALTHCARE

ABOUT US

GeneBio Healthcare was founded in 2020 as a Private Limited Company. Our core focus is on manufacturing and marketing diagnostic kits and reagents, with particular emphasis on '**In Vitro Diagnostic**' (IVD) products.

ACHIEVEMENTS

When COVID-19 emerged and testing kits were in short supply, we rose to the challenge. We developed the expertise needed to ramp up production while maintaining the highest global quality standards. **To date, we are proud to have supplied more than 100 million COVID-19 test kits to various state governments across India**, making a significant contribution to the fight against the pandemic.

MISSION & VISION

GeneBio Healthcare started with the mission to serve **India and Abroad** as a leading 'Diagnostic Manufacturer'. With this mission, we are dedicated to providing '**Make-In-India**' products that meet international quality standards.

OUR COLLABORATIONS

We are in mutual collaboration with **CSIR** for R&D and value addition of our products. We are also in the process of collaborating with other reputed institutions affiliated with **ICMR** and **DBT** for the evaluation and technical consultation of our upcoming products..
